PATENT

IN THE SPECIFICATION:

Please replace the Sequence Listing with the accompanying paper copy of the Substitute Sequence Listing, page numbers 1-15.

REMARKS

Applicants request entry of this amendment in adherence with 37 C.F.R. §§1.821 to 1.825. This amendment merely corrects typographical errors in sequences in the original Sequence Listing filed. These revisions merely conform the sequences of the Sequence Listing to the sequences in specification and figures of the originally filed application and thus do not constitute new matter.

This amendment is accompanied by a floppy disk containing the above named sequences, SEQ ID NOS:1-14, in computer readable form, and a paper copy of the sequence information which has been printed from the floppy disk. The information contained in the computer readable disk was prepared through the use of the software program "PatentIn" and is identical to that of the paper copy.

If the Examiner believes a telephone conference would expedite prosecution of this application, please telephone the undersigned at 650-326-2400.

Respectfully submitted,
